Company Profile

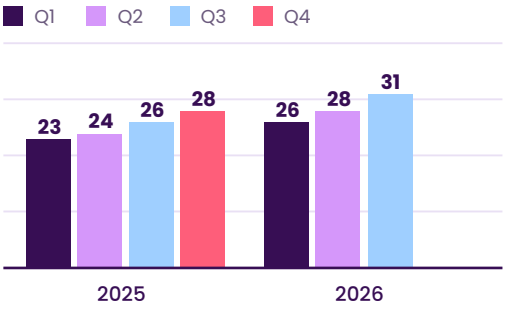

Allot (NASDAQ & TASE: ALLT) makes networks safer, smarter and more valuable. We make it our mission to help telcos and enterprises gain deep network insight, defend against evolving cyber threats, and unlock new value for their customers. At the core of Allot's solutions is Deep Network Intelligence, powered by advanced AI/ML technologies, enabling unmatched app-aware visibility, even when traffic is encrypted. The same intelligence that drives precise traffic control and Quality of Experience (QoE) optimization enables real-time protection against DDoS and cyber threats, and the market's only comprehensive network-native platform that turns security into revenue-generating services. Through these services, we enable telecom providers to offer accessible and affordable cybersecurity protection services to their consumer and small business customers who do not have the resources or expertise to protect themselves otherwise. Leveraging 30 years of advanced telecom and enterprise network expertise, Allot partners with more than 500 communication service providers, including many of the world's top 10 telcos, and over 1,000 enterprises. Recognized by top analysts and trusted globally, Allot is at the forefront of secure, intelligent network experiences.

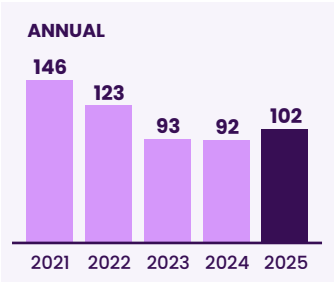

Market Focus

Cybersecurity: Allot is revolutionizing consumer and SMB cybersecurity. The Allot suite of network-based cybersecurity solutions gives telcos a clientless, zero-touch branded service that protects their consumer and small business customers from cyberthreats wherever they are and on any device.

Network Intelligence: Allot Network Intelligence solutions give telcos and enterprises the ability to see, classify and quantify all of the activity on their networks so they can ensure consistent and reliable quality of experience and service.
